

### Vega505EE

Vega is a mobile patient lift adapted for safe and easy lifting of users weighing up to 230 kg/ 505 lbs. Vega has a new, unique design with a lift arm that can be both raised to an almost upright position and lowered all the way down to the floor. It is also relatively narrow and compact, with dimensions adapted for use in situations and premises where space is limited. In spite of the handy size, Vega offers an unusually high lifting height and the total lifting range is also extremely large. Vega505EE is supplied complete and ready for use, equipped with hand control and a standard-width sling bar (SlingBar M, 45 cm/17.7").
